

R\_LinearStatistic

```
graph LR; R_LinearStatistic --> C_LinearStatistic; R_LinearStatistic --> ncol; R_LinearStatistic --> nrow;
```

The diagram illustrates the relationships between the R\_LinearStatistic object and its associated components. R\_LinearStatistic is the central object, which is highlighted in black with white text. It has three outgoing arrows: one pointing to C\_LinearStatistic (top right), one pointing to ncol (middle right), and one pointing to nrow (bottom right). All arrows are blue with black outlines. The target boxes are white with black outlines and black text.

C\_LinearStatistic
